Dear Mr. Dawson,

We are putting into writing the information about which we solicited last week.

Larry Strain, a Boy Scout leader in Troop # 372, Liberty, Mo., has made homosexual advances toward our 13 year old son, [REDACTED], and has encouraged him to participate in these activities. It was through him on our son's part that this was accomplished.

Larry Strain asked our son to accompany him alone to his farm near Bethany, Mo., under the guise of helping him plant trees and work toward some of his merit badges. It was at the farm that these homosexual advances were made.

Larry Strain also approached our son in his tent late one night at Boy Scout camp this year. at this time our son refused, knowing that he could safely do so because of the presence of the other scouts and scout leaders.

Larry Strain also told our son of having had similar experiences with other scouts. In fact he gave specific names.

We feel that you should take the proper steps to correct this situation.

Thank you for your cooperation.

DYKES_I_004593

One evening late in July of 1973, Larry Strain called my home and asked if I would like to go up to his farm for one day and two nights. During the day we would work on my first class, we would clean up the farm. Not knowing what was going to happen to me in the next two nights, I accepted.

He came to pick me up at our house at about eight p.m., and we reached the farm in Nodaway county Mo. at about eleven p.m.

Since this farm was so far from my home, I didn't know any of the noises of that place so I slept in the ~~same~~ same bed with Larry Strain. (The only other bed in the house with a mattress on it was downstairs.)

The first night, he demonstrated on me what he called "petting" above my waist. When he got tired we went to sleep. I stayed as far from him as possible.

The second night he did to me what he called "heavy petting" otherwise known as masturbation. Each night a cow across the railroad tracks would scream and wake us up and ~~then~~ Larry would start up again. Everything done the two nights was done with his hands.

When Mr. Strain would do these things to me I didn't fight him because I figured that since he had this one mental problem, I thought that if I didn't do what he wanted me to he might brutally hit or maybe even kill me. I didn't ~~run~~ run away because I was too far from home and didn't know the place that I was.

I am hoping that since by this letter and possibly others from other people you will ~~get~~ get Larry Strain out of all branches of scouting forever.

To whom it may concern:

I have talked to my son [REDACTED] and one of the other boys who was victimized in this affair and have complete faith in the accuracy of [REDACTED] account.

Now that these so-called events have come to light, we should, at least, be grateful that no physical harm has come to him. How much, if any, psychological harm has been done by this man only time will tell.

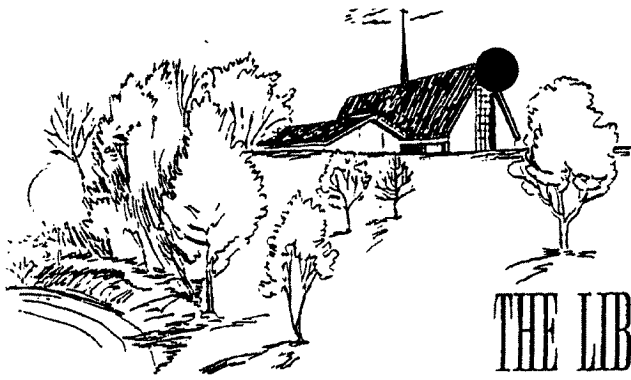

It is my firm conviction that Mr. Larry Strain should be denied the chance to be associated with the scouting program in any capacity in the future.

Sincerely

[REDACTED]

It is my recommendation that Larry Strain be released from and never allowed to participate in the Scouts of America. My reason being his unnatural sexual assaults on certain boys. I have not personally witnessed this, but have interviewed the three involved boys and their parents. Each boy individually volunteered the information without duress.

It is desirable of all parents that psychiatric help be sought by Mr. Larry Strain.

I request Scouts of America to do their best to meet the desires of parents within their abilities.

Respectfully submitted,

Ted M. Bell

Mr. Ray Dawson, Scout Executive
Scouts of America
Kansas City, Missouri

Dear Mr. Dawson:

I am writing to you concerning an episode which took place during the month of July, 1973 involving my 13 year old son, [REDACTED] and Mr. Larry Strain who is one of the adult leaders of Troop 372, Liberty, Missouri. [REDACTED] is a member of the same troop.

In July, 1973, Mr. Strain invited [REDACTED] to spend the weekend at his farm. I am not certain of the date but I believe it was either the second or third weekend in July. During the course of his visit at the farm [REDACTED] was forced to commit an unnatural act by Mr. Strain. I have since learned that the same thing has happened on different occasions to at least three other boys who also belong to Troop 372.

In order to help prevent such occurrences in the future, I believe it is imperative to remove Larry Strain from any scouting contact with any of the boys. I believe he must be prohibited from serving in any capacity not only in Troop 372 but throughout the scout organization.

I am writing this letter to you after discussing the matter with Mr. Ted Bell who had previously talked to you about it. From my discussion with Ted it is my understanding that this information is given to you in strictest confidence and that neither the existence of this letter nor any of its contents will in any way be divulged to Larry Strain.

I appreciate your help in this very difficult and tragic situation.

Very truly yours,

[REDACTED]
Liberty, Missouri
